

Fostering
disruptive technologies
and solutions
for women's health

**TECH4
EVA**

FemTech Accelerator

In order to give more visibility to FemTech and to accelerate innovation, Groupe Mutuel, one of the leaders in health insurance in Switzerland, has joined forces with the best innovation hub in Switzerland, the EPFL Innovation Park.

Together, we want to attract and promote the best solutions in FemTech and give them an opportunity to test their market, finance themselves, or better, co-create together.

More than any other healthcare domain, FemTech innovations must be supported to foster more effective prevention and treatments for women's health.

It is a cause, and we would like you to join us.

Lan Zuo Gillet, EPFL Innovation Park

Releasing the power and well-being of half the planet's population

Women have been historically underserved in healthcare, as modern medicine has been built on a one-size-fits-all approach that considered men as the main parameter for health-related solutions. Having being excluded from clinical trials for so long, women have to deal with many unresolved health issues, as well as with the consequences of inadapted treatments to this day.

Yet, many studies show that because of their longer life expectancy and their tendency to seek out more preventive care, **women actually spend more than men on their healthcare.**

On the other hand, more and more corporates are aware of the importance of the well being of their growing percentage of female work force throughout their biological life cycles.

As an established Health insurance company determined to improve health condition of 50% of the population, Group Mutuel launched this Femtech initiative together with EPFL Innovation Park, to further foster innovation in this sector and help start-ups offering disruptive FemTech solutions to go to market and accelerate their growth.

FemTech on the rise

FemTech (or female technology) is a term applied to **an emerging industry** that includes a broad range of technologies dedicated to the improvement of women's health and wellbeing. This sector includes solutions in many areas, including fertility & pregnancy, women's sexual wellness, women's medicine, female oncology, period health, menopause and mental health.

With the rapid rise and early successes of start-ups dedicated to women's health, FemTech is becoming a hot topic and a promising asset class for investors. In 2019, the global FemTech market generated \$ 820.6 million, with a **market value estimated to be worth \$ 50 billion** by 2025 (Frost & Sullivan).

Tech4Eva

The first Swiss program in field of FemTech

Tech4Eva is an equity-free virtual accelerator program on a **mission** to create an innovation platform in Switzerland, where disruptive start-ups and projects from around the globe develop innovative solutions for improving or advancing technologies relating to women's health and achieving respective growth.

The **vision** of the organization is to build a global FemTech community by connecting all stakeholders in different markets active in the sector.

Tech4Eva's 9-month acceleration program consists of multi-layer activities, such as mentorship by corporate experts, specialized workshops, roadshows, peer-to-peer experience, training sessions, experts event series, as well as focus groups for:

Growth-stage start-ups

Tech4Eva assists selected companies in their business development through workshops, mentorship and peer-to-peer sessions, strengthen their market visibility through public roadshows events and connects them with potential customers and investors, by leveraging the network of the EFPL Innovation Park and its other partners.

Early-stage start-ups & projects

Tech4Eva helps selected companies and projects to refine and validate their business models and go-to-market process strategy through training sessions and personalized coaching, as well as develop pilot projects with potential business partners.

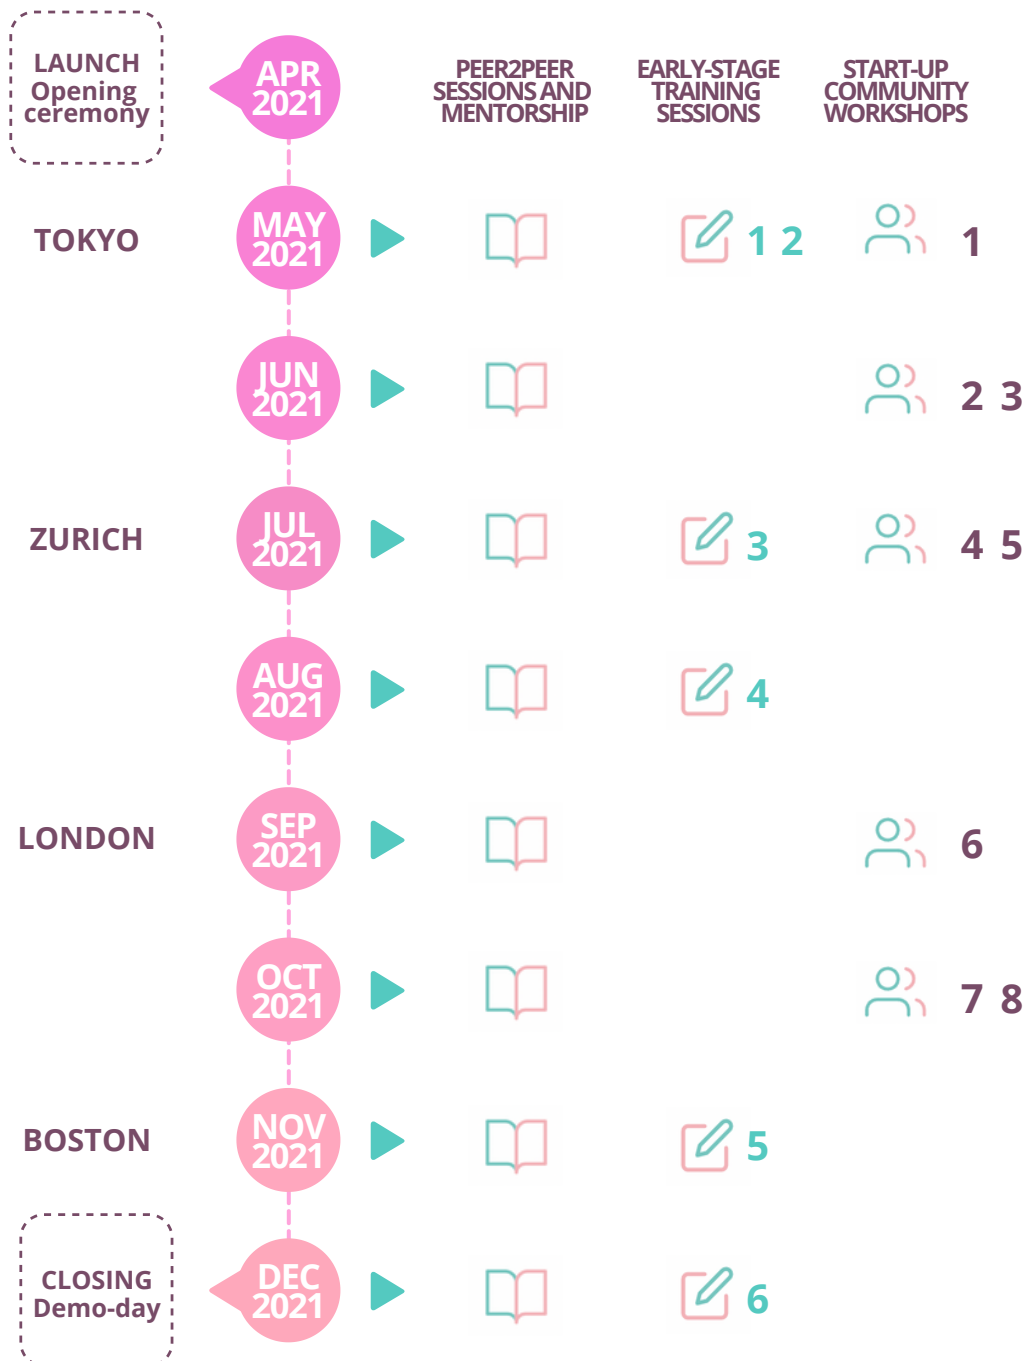

FemTech community

Tech4Eva organizes a series of networking and knowledge-sharing events, such as roadshows, expert talks and focus groups. Various field specialist are invited to share their experiences, insights and recommendations and discuss how their field knowledge is (or can be) applied to specific femtech-related cases.

2021 Program activities

Through the community that the program aims to build, Tech4Eva supports the growth of the start-ups in the program and the development of ideas from innovators through its focus groups with: monthly peer-to-peer sessions for growth-stage start-ups, 6 training sessions for early-stage start-ups, 8 start-up workshops, recurring mentor meetings, 4 focus groups and various community events.

ROADSHOWS

Training Sessions

- 1 Market Analysis & Value Proposition
- 2 Building a strong team
- 3 IP Protection
- 4 Product Development & Go-To Market Strategy
- 5 Financial Planning
- 6 Final presentation to jury

Community Workshops

- 1 Introduction to the Swiss health system
- 2 How to crack the press game
- 3 Presentation skills
- 4 Swiss ecosystem and how to work with pharma
- 5 Regulatory pathway
- 6 Financing
- 7 Where to play? Market opportunity navigator
- 8 Sales & Marketing in the health sector

Focus Groups

The objective of the Focus Groups in the Tech4Eva program is to foster collaborations between start-ups, experts and corporates for the co-development of shared solutions in FemTech. Through an open-innovation approach that leverages a data federation system, Tech4Eva aims to bring concrete points of data and sources of investment for all stakeholders that work for improving women's health and wellbeing.

2021 Selected Areas

Prevention & Wellness

Pregnancy & Post-partum

Fertility

**Menopause,
Period Health
& Incontinence**

Prevention & Wellness

The Prevention & Wellness Focus Group explores open innovation in the context of prevention and wellness. It is open for start-ups, corporate or expert developing solutions in the area of prevention and wellness to co-create solutions through an open innovation approach over 6-months.

LEADERS

Marco Rüedi
(EPFL Innovation Park)

Ksenia Tugay
(Groupe Mutuel)

Jihyun Lee Engler
(Groupe Mutuel)

GOALS

Explore open innovation in the context of Prevention & Wellness

Identify pain points from start-ups, corporates and other stakeholders in the field and facilitate interaction between them

Design a path for optimizing future collaborations

Pregnancy & Post-partum

This Focus Group is aimed at tackling issues, challenges, and opportunities in the domains of pregnancy and post-partum. It is a virtual space to discover the technology and scientific solutions addressing pressing health issues and to connect with experts, innovators, researchers and people who have an interest in this domain.

LEADERS

Douglas Haggstrom
(Innovation Office,
University of Basel)

Laura Rio
(Medical Scientist)

GOALS

Understand the pregnancy patient journey

Identify corporate engagement opportunities in the domain

Develop messaging strategies for positioning of pregnancy start-ups

Fertility: the Unspoken Journey

This Focus Group wants to revolutionize the current patient journey of fertility and infertility, by breaking the silence around the topic and empowering women through the ultimate awareness generation toolkit. It is addressed to companies, counsellors, specialists and representatives of specific patient groups.

LEADERS

Haider Alleg
(Ferring Pharmaceuticals)

Marzia Massignani
(vVardis)

GOALS

Awareness and call to action generation

Design a more fluent journey from diagnostic to success

Build a collaboration framework of all stakeholders

Menopause, Period Health & Incontinence

By 2025, 1 billion women will experience menopause (12% of the world's population), which corresponds to a \$600 billion spending opportunity. The urinary incontinence market will reach USD 3.93 billion by 2026. This Focus Group aims at connecting top industry experts, as well as co-creating joint solutions for these markets with corporates, start-ups and field experts through an open innovation approach.

LEADER

Marta Gehring
(Swiss Biotech Association)

GOALS

Create a learning community

Better understand target consumers

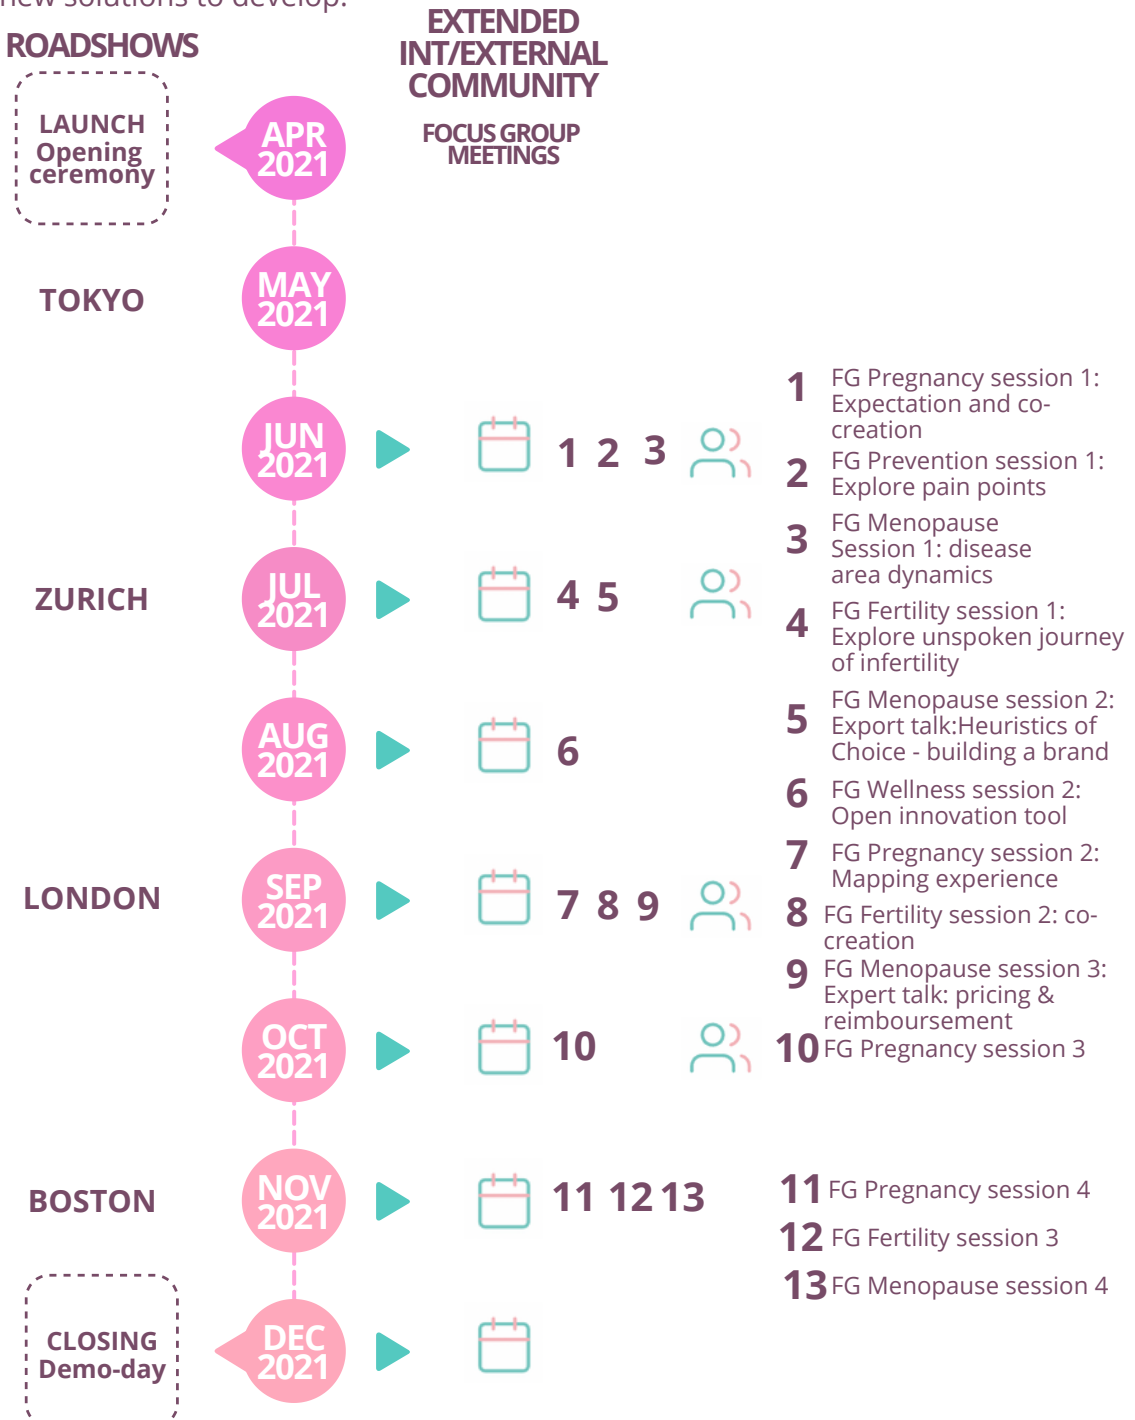

Help refine product-market fit

Drive investor interest

Focus Groups Meetings

Focus Group meetups are open innovation platforms for experts in the vertical areas - researchers, medical professionals, corporate specialist and start-ups founders to meet and to identify unmet needs and to join forces to develop new solutions.

Overseen by Ksenia Tugay, the 4 focus groups aims to deliver, for 2021, an overview of the state of the art of new solutions in the four verticals and identify potential new solutions to develop.

Impact of the program - progress of growth start-ups

Aspivix	Fundraising CHF 5M round. Got into contact with a distributor in Japan through Tokyo Roadshow.
Annaida	Received EU grant of CHF 1.75M and fundraising additional CHF 4M . Finished the proof of concept study with Cow embryo.
Breathe ilo (carbomed)	Valuation €15M pre-money, fundraising €5-6M Series A
Embr Labs	About to close fundraising round \$20M B1 round and launched its Wave 2 model (on Rollingstone magazine Essential list)
Fizimed	Major corporate partnership deal signed with Essity (12 billions€/year , brands Nana, Lotus, Okay, Tena etc...)
Galsbio	Fundraising \$6M , time to market 3 yrs
Gyntools	Fundraising \$7-10M A Round
Impli	Got 15 contacts from mentor from Merck for commercialisation. Still fund raising and going through due diligence process
Metabolomic Diagnostics	First revenues, CLIA Lab partnership MOU Q3 2021, fundraising €8M
Momm diagnostics	Through Tech4Eva Program, the company is getting visibility. Still in technology development, hope to finish pilot project by 2022
Muvon Therapeutics	Fundraising CHF15M Series A and preparing for kickoff of phase 2 clinical trials
Preglife	Acquired Bej Technologies, 4.8 star rating in app store
Testmate	Raised \$1.5M and doing product validation, have done 80 testings
Viveca Biomed	Launched Contrelle brand – sold Walgreens Alliance boots
Woom	Q2 2021 €2M bridge towards new fundraising round €5-8M

Founding partners:

The EPFL Innovation Park

A pole of innovation as Tech4Eva's birth house

The EPFL Innovation Park supports disruptive innovations and the transfer of technologies of the prestigious Ecole polytechnique fédérale de Lausanne (EPFL) and other regional academic partners, by providing flexible office space, training, acceleration and coaching services. Building a true sense of community, the Park is devoted to housing start-ups, SMEs, research teams and innovation cells from major companies that operate in fields as diverse as information technology, computing, health and nutrition, engineering, transport, telecommunications or materials.

In constant evolution since it was founded in 1991, EPFL Innovation Park currently houses 14 buildings with access to various laboratories and cutting-edge research, hosting over 150 start-ups, 26 large companies and around 20 services providers. The vibrant campus provides a unique environment to a large network of dynamic entrepreneurs and established companies for exchanging ideas and knowledge.

Founding partners:

Groupe Mutuel is Tech4Eva's main sponsor and is one of the leading personal and health insurance companies in Switzerland: more than 1.3 million private customers and close to 24'000 companies rely on the insurer every day. In addition to compulsory health insurance (LAMal/KVG) and supplemental insurance (LCA/VVG), customers can choose from an extensive range of life insurance plans to cover risks and provide for their individual retirement benefits, as well as from a range of patrimony insurance solutions. Moreover, Groupe Mutuel insurers provide daily allowance insurance to companies, pursuant to LAMal/KVG and LCA/VVG, as well as compulsory accident insurance (LAA/UVG). Groupe Mutuel also manages Groupe Mutuel Prévoyance-GMP pension fund.

Network partners:

The Embassy's Swissnex team is part of the Swiss global network connecting Switzerland and the world in education, research and innovation. Our mission is to support the outreach and active engagement of partners in the international exchange of knowledge, ideas and talent. We thereby contribute to strengthen Switzerland's profile as a world-leading science and innovation hotspot.

FemTech Analytics (FTA) is a strategic analytics agency focused on relatively young yet already treated as the next big market disruptor FemTech market, which embraces the cornerstone subsectors such as Longevity for women, Mental Health & Healthy Lifestyle, Reproductive Health, and General Healthcare. The range of activities includes research and in-depth analysis on major areas of high potential in the FemTech industry, maintaining profiling of companies and governmental agencies based on their innovation potential and business activity, and providing consulting and analytical services to advance the FemTech sector.

Fermata accelerates the development of the FemTech ecosystem and a community that celebrates diversity in society. Create a place for women to share their concerns and issues related to their bodies Curate FemTech products from around the world and provide solutions in Asia.

Ferring Pharmaceuticals is a research-driven, specialty biopharmaceutical group committed to helping people around the world build families and live better lives. Ferring is a leader in reproductive medicine and maternal health, and in specialty areas within gastroenterology and urology.

Joyance Partners is the first venture fund focused on finding and growing new companies that deliver Delightful Moments derived from science. Delightful Moments are part of all human experience: the small, but powerful, separations from the daily humdrum when we feel stronger, calmer, more joyful, more in control, more distant from pain and anxiety.

Women of Wearables (WoW) is a leading global organisation aiming to inspire, connect, and support women and allies in emerging technologies such as wearable tech, IoT, health tech, and everything in between.

Swissnex is Switzerland's Science and Technology global network connecting Switzerland and the world in education, research and innovation. swissnex's mission is to support the outreach and active engagement of our partners in the international exchange of knowledge, ideas and talent. Swissnex is the launchpad for Swiss startups going global. Our equity-free startup programs are customized to the needs of entrepreneurs exploring or entering the UK market, and we co-create programs and provide services to other Swiss innovation partners.
